All Employees

The Tennessee Prescription Safety Act of 2012 has established new guidelines for pharmacies to address the problem of prescription drug abuse. Because of these changes the County has had to adopt a new program. The "First Fill Card" program allows prescription drugs that are related to a **work injury only** be dispensed at no out of pocket cost to the employee. When an employee, injured on the job, receives a prescription from their County approved treating physician they will contact the Risk Management office and receive a first fill card. The card, along with the prescription(s), will be presented to the pharmacy each time the prescription(s) is/are filled or refilled. The card is valid only for the specific injury and its use is discontinued once the employee has been released by the physician.

If you have any questions about a work related injury claim, please contact this office.

Sincerely,

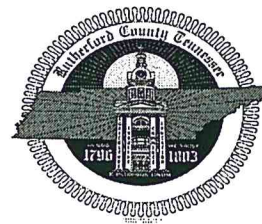

Dan Goode  
Safety Coordinator  
Rutherford County Government
